TEG: premises in, conclusions out

Each funnel is one proof that Lean accepts.

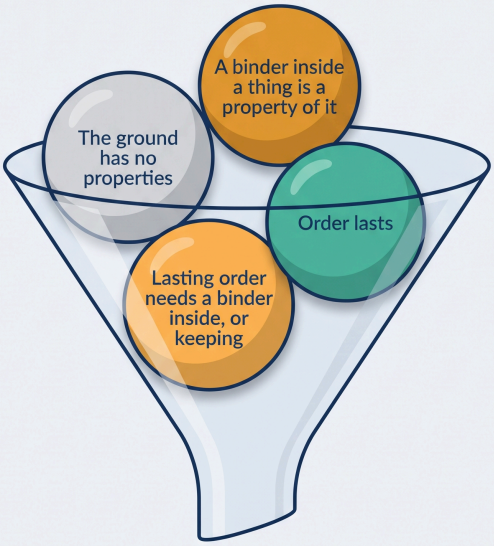

premise · observed · from an earlier paper · science · free will

Paper 1: Why Existence Cannot Ground Itself

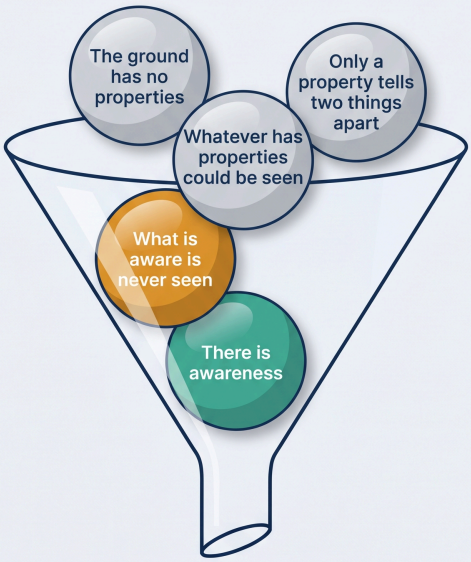

- A cause of everything with properties, and it has none
- That cause is one: Pure Potential, the ground
- It is at no time
- It causes everything in time, at every instant

Paper 2: The Ground Must Choose

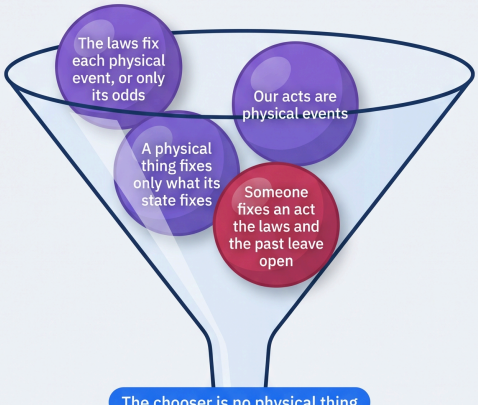

- Nothing inside the ground binds its causing
- It keeps what it made
- That is choice

Paper 3: What Is Aware Is the Ground

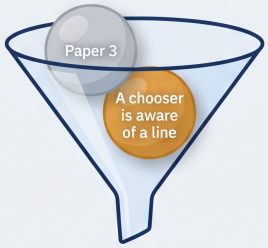

- What is aware has no properties
- What is aware of my line and of yours is one
- It is the ground

Free Will Meets Science

- The chooser is no physical thing
- Choices fall where laws fix only the odds

- The chooser is the ground
- Your choice and mine come from one chooser
